

Household Inventory List Instructions

It will be easier to fill out this form one room at a time. Make multiple copies of the blank form so you have plenty on hand. Fill in as much information as you can. Have one form for anything that you buy new. This way you only have to make a copy of that one form to update your Home Inventory List that is kept in your safe deposit box or off site with a trusted relative or friend.

Any item you get rid of should be crossed off the list. At least once a year make a copy of the complete updated list and replace the old copy kept off site.

Household Inventory List **Room** _____

Item	Purchase Price	Purchased Date	Serial/I.D. Number	Replacement Cost	Website of Company
